

GUTTERHOOD

guaranteed gutter protection

WHY GUTTER PROTECTION?

- Cleaning gutters is a dirty and dangerous job. Overflowing gutters are dangerous to your home.
- If rain water is not properly channeled, it will cause erosion of landscape, walkways and foundations.
- Unchanneled rain causes mold and mildew growth, and eventually ends up in the basement!

WHY GUTTER HOOD?

- Guaranteed to keep gutters free flowing. The best gutter protection system on the market today.
- Compare and save THOUSANDS! Gutter Hood uses the same profile as the leading national brand.
- "Never Screw into Your Roof Again!" Our patented bracket eliminates hundreds of holes in your roof and doesn't void your roof warranty.

"Don't waste your time cleaning and repairing your gutters each year."

HOW IT WORKS

- The Flow-Limiting rubber design slows and spreads water, causing it to sheet instead of bead.
- 25 year proven nose-forward design channels rainwater in, and keeps leaves and debris out.
- High Performance Alloy, coated with no-fade Kynar 500 finish.
- Guaranteed "Nose-Forward" Installation.
- Self Supporting Design distributes all weight directly onto bracket.
- Superior Bracket screws to Fascia, unlike other brands that screw into your roof.
- Strengthens and reinforces your existing gutters.
